

## Detachable HDMI Active Optical Cable Instructions

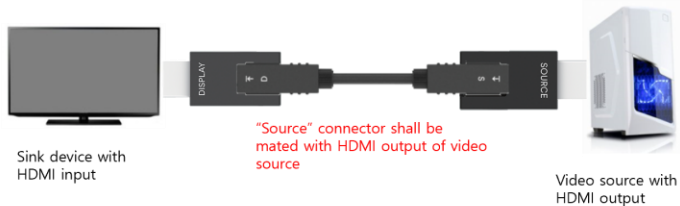

**Active Optical Cable is directional.** Please make sure printed mark on connectors ( Source/Display)

Please make sure that HDMI adapter and AOC connector shall be mated as below order.  
"SOURCE" and "S"  
"DISPLAY" and "D"

Please make sure to fasten AOC connector and HDMI adapter with locking pin after installation

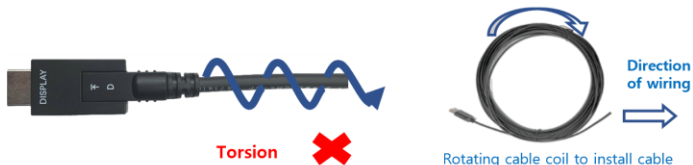

"Source" connector shall be mated with HDMI output of video source

**\* This product doesn't work if it is connected reversely**

### Tips for Installing

1. Do not apply strong force and/or shock to this product to prevent optical fiber damage during storage, transportation, and installation.
2. Avoid torsion of cable. In case of wiring, pull out cable with rotating cable coil as shown in below picture.

Torsion

Rotating cable coil to install cable

3. Keep minimum bending diameter to prevent fiber break and/or signal degradation.

4. In the case of connector mating and disconnecting, please hold connector body, not holding cable, to avoid malfunction.

Please make sure to fasten AOC connector and HDMI adaptor with locking pin after installation

OK: Hold connector body

NG: Holding cable should be avoided

5. Take care of dust on electrical contacts. Put dust cap on electrical contacts when the cable is disconnected.

6. Canare will not provide proper support for any defects or damage resulting from accident, misuse, unauthorized modifications, unusual physical or electrical stress, service other than by the manufacturer, or abnormal conditions by the consumer (cable damage, case breakage, etc.)

7. Treatment of surplus cable length should be making coil with diameter more than twenty times of cable thickness. And fix the coil without stress on connector.

### [Precautions]

- \* Read instructions carefully before usage of the product and other instruments.
- \* Do not apply strong force and/or shock on the product
- \* Use new cable if damage on cable or connector is found
- \* Do not handle the product with wet hand
- \* Do not use and storage the product in wet conditions
- \* Do not place anything on the connector or cable
